Dear Governor Reynolds and Lt. Governor Gregg,

The undersigned Board Presidents and Superintendents of the member districts of the UEN acknowledge and thank you for your support of extending the state penny for school infrastructure and property tax relief.

The state penny, known as the SAVE fund, is critical to our school districts' ongoing facility, equipment, safety and technology needs. As you mentioned in your Q&A with the Iowa Association of School Boards Legislative Resolutions Committee in September, Governor Reynolds, constricted bonding capacity with an imminent expiration is challenging our districts' abilities to continue to provide the facilities our students need, designed for their learning.

Recent state actions requiring a new state assessment, emphasis on computer coding coursework, online learning, and career and technical education efforts all demand resources in order to provide the technology, equipment and facilities students need. Secured access to our schools, facility upgrades and monitoring technology for student and staff safety also weigh on us as a heavy responsibility.

We appreciate your concern to invest in new and upgraded career and technical academies in alignment with your priority for Iowa's workforce and support the grant amount for that purpose as written in the legislation agreed to by 95 Representatives during the 2018 Session ([HF 2481](#)).

We respectfully ask for your leadership in moving a bill through the Iowa House and Senate, so that it gets to your desk for signature early in the Session. As of this writing, the economy appears to be experiencing healthy revenue growth. In the event that tax law changes and economic forces apply pressure down the road, this is one policy you can champion for Iowa public schools that does not require significant investment out of your FY 2020 budget.

Thank you for your consideration and leadership,

Dr. Lew Finch, Executive Director, Urban Education Network, and

- **Cedar Rapids** Board President Nancy Humbles and Superintendent Brad Buck
- **Council Bluffs** Board President David Coziahr and Superintendent Vickie Murillo
- **Davenport** Board President Ralph Johanson and Superintendent Arthur Tate
- **Des Moines** Board President Teree Caldwell Johnson and Superintendent Thomas Ahart
